21. Please comment on anything that the school does particularly well:

10 responses

Since my child got assessed , the school have made measures to ensure his needs are catered for

Making sure the children are safe and happy

Keeping our children safe

Using class dojo for information

Fantastic leadership from the head teacher and very friendly teachers and staff assistants my children love all of the staff and their enthusiasm to teach.

A sense of community, everybody are made to feel welcome. My daughter loves the school and her teacher has sparked a beautiful interest in my daughter with wild life. And school values are amazing.

A really good balance of rules and fun. Rules without being overly strict, but setting a realistic level of expectations. Fun without letting it get in the way of learning and behaviour.

The school is very well led and feels like a family.

The school see each child as an individual and are child focused. They celebrate children in every achievement.

Looking after our children's well being, which is much more important than academic achievement and what I want as a parent for my child in a system, I believe to be out dated. They are doing their best to act outside the box as much as they are able. So grateful for that, thank you.

## 22. Please comment on how the school could be improved:

9 responses

Hoping we'll be able to have a face to face teacher / parent meeting. Zoom calls are not great

Some stronger links with the local community.

Increase parental involvement

No more vegetarian sausages! There should be meat sausages available aswell

The school pick up needs to be looked at again, it's very unsafe to walk your child on the road as parents are taking up the path when queuing for their children. This is happening daily.

I would like to know more about what my child is learning during school so I can further help her at home .

I don't feel there is any area in which the school can be improved.

More opportunities to know how children are progressing and targets.

To allow flexi school for those parents who want and are able to do it. If it was made more normal, the children wouldn't be effected in a negative way. 5 days a week is too much for our children, there is not enough time or energy to do all the fun (and educational, as we are always learning) things in life (too much for anyone in my opinion, work should not be a standard 5 day week either!)
