Finance Director Check List

It is recommended that the Trust has a Finance Director; one individual with specific, relevant skills and experience of financial matters. This individual can act as a link between the CFO/CEO and the Trust Board when required. The Finance Director will meet with CFO and CEO (Accounting Officer) at least once during the academic year to cover items in the following checklist as appropriate (not exhaustive) and report back to the FRS & Audit committee (and where or if necessary, the full Board). This is partly because some responsibilities do not lend themselves to being discussed in a meeting. The FRS or Audit committee can request that certain things are looked at in these annual meetings if something comes up.

The Church's vision for education reaches beyond Church of England schools; it offers a compelling vision for the education of children and young people in community and church schools. It aims to deliver excellence in education and the very best outcomes for children and young people so that they can achieve their fullest potential. The unequivocal message is that academic rigour and the wellbeing of pupils are equally important – a good education must promote life in all its fullness. In order to ensure the continuing close relationship between the Church School and its local church and community, it is a requirement that Church of England Academies in Community-led MATs have local governance (individual board, Ethos Committee or 'hub') where Foundation Governors are the minority or majority.

WORKING GROUPS AND MONITORING

These activities take place before the full LGB meeting each term. Governors split up to take part in a working group (informal meeting that is not minuted by the Local Governance Officer), and/or conduct visits, or attend training, or conduct other activities such as performance management or interviewing as required. The more governors there are, the more these tasks can be shared out and governors in small LGBs will need to be prepared to do more than one task. Governors in HUB LGBs may do these tasks for one school or for both schools. The governors then report back to the rest of the governors at the full meeting to minute outcomes of the working groups or visits, including any follow up actions or challenges. The areas below are part of the cyclical plan for governors and **must be covered at a visit or working group or in the main meeting**, but other areas can be covered in addition such as ethos, vision, data, staff well-being etc or items related to the improvement plan if that is beneficial to do so.

Guidance on Visits

Boards need to know their school if accountability is going to be robust and their vision for the school is to be achieved. Many boards find that visiting their school(s), particularly during the day, is a helpful way to find out more about the school, its staff and students. Through pre-arranged visits that have a clear focus, the board can see for themselves whether the school is implementing their policies and improvement plans and how they are working in practice and having an impact. Visits also provide an opportunity to talk with pupils, staff and parents to gather their views.

Governors are not inspectors and it is not their role to assess the quality or method of teaching or extent of learning. They are not to monitor lessons to assess the quality of teaching. They can, however, monitor to gauge whether initiatives are having an impact, the children's approach to learning and behaviour, and that the school vision is underpinning everything. They are also not school managers and should make sure they do not interfere in the day-to-day running of the school. Both are the role of executive leaders. If boards wish to spend time within a classroom, they need to be very clear why they are doing so.
